- OEM | CE-Marked | FDA approved

Komet Medical is one of the leading independent manufacturers of surgical knee saw blades – probably with the most comprehensive product range for all commonly used Power Systems. We can offer you READY-TO-SELL solutions of exceptional saw blades in various performance levels. You can either opt for fully certified and registered stock items, bearing the Komet Medical brand (both sterile and non-sterile). Alternatively, we can dedicate all our special knowledge and capacities to provide you with a customized solution, totally focused on your needs – from an OEM product with customized laser marking to an individual design, with or without complete documentation.

# About Komet Medical.

Komet Medical has more to offer than just an answer to everything. We come up with perfect solutions (custom)-made to your requirements – all from a single source. That's why these days, Komet Medical is internationally renowned as one of the leading contract manufacturers of power tools for use in powered surgical hand pieces.

We are happy to support you with our expert know-how and outstanding service throughout the entire supply chain – from the initial idea to the development of the product. We can cover every aspect, from engineering to the sterile packed product and from logistic to marketing. Komet was already founded in 1923. The company has been family-owned since its foundation and employs more than 1,200 staff world-wide.
